Dear Volunteer,

Thank you so much for your continued commitment to providing our patients with so many wonderful things to help them through the medical mission process! As our organization and the number of children we reach each year continues to grow, our Service Projects have also grown. In 2019, we are focusing on updating each of our Service Project materials to ensure that we are keeping up with our needs in the field and sending the best possible items. Below, I’ve answered some questions about the changes to our Service Projects and addressed some of our most pressing needs. If you have any questions about these changes, please reach out to your Student Programs representative, give our Student Programs Coordinator, Kate Malla a call at 757-985-4285, or email Kate at kate.malla@operationsmile.org.

Sincerely,

Student Programs Team

FREQUENTLY ASKED QUESTIONS:

We’ve collected Mirrors/Conditioner/Body Wash/Lotion, what should we do with them?

We currently have inventory of over 1,000 mirrors, so we won’t need any more for quite a while. To keep Smile Bags light enough that they don’t increase the overall shipping price, we have determined that Conditioner, Body Wash and Lotion are not needed in the same way that other Smile Bag items are. Please sort these 4 items out of your donations before you send them.

Why are you requesting single-layer fleece knotted blankets?

Most of the places we work are not terribly cold, and a single-layer fleece blanket is enough for our patients. Plus, by only creating single layer blankets the same amount of materials you normally would have used will now go twice as far! Single-layer knotted blankets are made exactly the same way as double-layer knotted blankets, and instructions are included in this packet.

Seam binding is very expensive, could we make hospital gowns without them?

We understand that seam binding can sometimes be much more expensive than the other materials needed to create our children’s hospital gowns. If you prefer, you may finish the edges of the hospital gown with a nice seam, and create the ties using leftover fabric from the gowns, or a thick ribbon that is similar in size to seam binding.

Where do the items that we make go, and can we see photos of our specific items?

Currently, items are being shipped along with the mission cargo to 30 countries. We pack as we receive items at our headquarters, and are unable to track your specific donations to a mission site. However, we try to capture photos of our patients utilizing your donated items as often as possible, and will gladly share those upon request.
CHILDREN’S HOSPITAL GOWNS

Priority Level: HIGH

Many years ago one of our volunteers noticed that children come to the hospital in their best clothing hoping to be selected for surgery. Many wore these same clothes into the operating room because the hospitals did not have child-sized gowns for them to wear. Since then, we have developed this hospital gown project to help us provide children’s sized gowns for our smallest patients.

A gown pattern is available from Operation Smile. We have found this to be the most needed size for our host hospitals.

To request a copy of this pattern, or if you have any other questions, please contact our office at 1-877-240-7196, or email at communityrelations@operationsmile.org.

Materials

- Gown pattern (sleeve and body)
- 1 yard lightweight fabric, plain or printed
- 5 feet of double fold seam binding: Cut 2 12” long pieces for ties.

Instructions

1. Cut 1 of piece A (gown body) on the fold and 2 of piece B (sleeve) on the grain of the fabric.
2. Trace seam marking to fabric.
3. With right sides together, sew each sleeve piece matching the symbol. Press seam open.
4. Turn under ⅛” at the hemline of the sleeve and press. Turn under ¼” again and sew hem. Press.
5. With right sided together, match seam markings of sleeve and gown. Allowing a ½” seam allowance, sew seams together.
7. Press under ½” and then ½” again along the gown opening. Sew edge.
8. As with the sleeve hemline, turn under the gown hemline twice and sew edge. Press.
9. Fold under ½” of a 1 foot piece of seam binding. Sew end along open edge to form a tie. Attach to open gown edge by sewing an X pattern about 7” below neckline. Repeat for second tie.
10. Fold remaining seam binding in half to find center. Beginning with the center fold of the gown, encase the raw edge of the neckline, pinning every 2” to 3”. Starting at one end of the tie, fold under ½”, sew the end and along the open edge of the seam binding. Continue to the other end of the seam binding, folding in ½” before finishing the end.
CHILD LIFE SUPPLIES

Priority Level: HIGH

Our Child Life Specialists are licensed professionals that provide psychosocial care and guide the patient and family through the surgical experience. They utilize their knowledge of child development to ease patient fears and anxieties by explaining and demonstrating every aspect of care. They facilitate therapeutic play and activities, working with parents, and act as the child’s and family’s advocate in the potentially confusing world of the hospital.

If you would like to assist our team and provide fun and engaging toys to help calm our patients before surgery, please only choose items from the list below.

**INFANT/TODDLER (AREA OF HIGH NEED)**

- Rattles (handheld)
- Stacking cups/toys
- Baby/toddler textured blocks
- Soft foam balls/textured rubber balls
- Sassy brand infant toys

**PRESCHOOL**

- Toy Medical Kits (Fisher Price or similar)
- Fisher Price “Little People” (or similar brand) plastic/rubber people, animals and cars
- Baby dolls (variety of skin tones)
- Pull-along style toys
- See-n-Say Toys

**SCHOOL AGE**

- Matchbox style cars and trucks
- Wall mount/inflatable basketball hoop
- Barbie dolls (variety of skin tones)
- Jewelry making bead/string kits

**ARTS, CRAFTS & GENERAL USE**

- Liquid Bubbles (2 – 4 oz. size)
- Coloring & Activity Books
- Kids ring toss game
- Kids bowling pins and ball
- Building blocks set (medium size)
- Glitter Tube Wand
- Sidewalk chalk
- Blow-up balls
- Crayons (any size)
- Markers (any size)
- Construction paper
- Rolls of art/easel paper
- Stickers
- Masking tape or scotch tape
- Foam or Carpet play mats
- Large sheets for floor play
- Sanitizing wipes to clean play space

**SPECIAL NOTE:** We cannot accept donations of toys with weapons or violent themes such as guns, knives, swords, or other projectiles (including Styrofoam), or any toys with religious symbols.

We cannot ship toys with lithium batteries due to international shipping regulations.

For more information on Child Life Therapy Supplies, or if you have any questions about this list, please contact us at 1-877-240-7196, communityrelations@operationsmile.org.
QUILTS, BLANKETS AND AFGHANS

**Priority Level: HIGH**

Clubwomen can help craft blankets, sew quilts or knit/crochet afghans. This project is a wonderful way to provide warmth and comfort for our patients worldwide.

All quilts, blankets and afghans need to be appropriately sized for a child: 45" x 45" or 54" x 54". Quilts should be made from lightweight cotton and must include light batting. Blankets can be made from lightweight fleece. Light to medium weight cotton or acrylic yarn is preferred for afghans.

No-Sew Light Weight Fleece Blanket

Please note: we have determined that these light-weight blankets are best for our patients, and we will no longer send double fleece blankets. Thank you!

Materials

- 1-1/2 yards of bright colored or printed micro-fleece
- Tape measure
- Sharp shears or scissors

Please note: we have determined that these light-weight blankets are best for our patients, and we will no longer send double fleece blankets. Thank you!
Instructions for No-Sew Light Weight Fleece Blankets

1. Cut your fabric so that it measures 54" square. Remove the selvages (machined edge) and even up all uneven sides.

2. Cut a 4" square from each corner.

3. (Optional) Use masking or painters tape to make a line across the length of the blanket from the square you just cut, and use this as a guide for cutting your fringe!

4. Starting from one of the edges you just cut, begin cutting 1" fringe to the tape (or 4" deep if you don’t use the tape) all the way around the fabric.

5. Take each fringe piece and gently tie a knot at the end of the cut (closest to the masking tape). Do not tie two pieces together, just knot each single piece of fringe. Be careful not to stretch the fleece if possible! This creates a finished edge so the blanket won’t fray. Once all fringe pieces are tied, remove the tape and your blanket is ready to go!

Instructions for Serged-Edge Fleece Blankets

1. Cut your fabric so that it measures 54" square. Remove the selvages (machined edge) and even up all uneven sides.

2. Use a small plate or saucer to round the corners of your fleece. Line the plate up to the edges and cut around the edge of the plate. Repeat for all corners. This gives your blanket rounded corners.

3. Set your serger machine up for fleece (check your machine’s manual for the proper settings). We’ve found that ball-point needles work best for fleece. You can use one color of thread for the whole blanket, or use multiple colors for a fun look!

4. Once your machine is set-up and you’ve tested on some scrap material, choose a starting point on the straight side of your blanket, and serge all the way around.

5. Serge over the beginning stitches, leaving a bit of a tail.

6. Use a fray blocking glue, or hand stich/weave the tail to ensure the edges don’t unravel.

Knitted Child-Sized Afghan and Crocheted Child-Size Afghan

Afghans need to be appropriately sized for a child: 45" x 45" or 54" x 54" using light to medium weight cotton or acrylic yarn. You are welcome to use your favorite knit or crochet pattern that fits within the size requirements for these blankets.
Machine Quilted Blanket

Materials

- 1 1/4 yards printed decorative quilt fabric
- 1 yard solid color quilt fabric
- Quilt batting
- 1 1/4 yards woven flannel
- Large safety pins or needle and thick thread
- 1" masking tape
- 1 yard solid cotton fabric
- Sewing pins
- Sewing machine

Machine Quilted Blanket Instructions

1. Cut a square from the decorative fabric, a little bigger than you intend for the finished quilt. You can use the width of the fabric and make a 44" x 44" square. Cut squares of flannel and batting – make sure they are just a few inches bigger than the decorative fabric.

2. Place the square of decorative fabric (the “quilt top”) and center over the layer of light-weight quilt batting. Take the fabric and batting and put them on top of the piece of woven flannel.

3. Use the large safety pins to baste or hold the layers in place. Or you can baste the quilt by sewing long loose running stitches by hand.

4. Place a piece of masking tape diagonally (corner to corner) across the top of the quilt. Line up the tape with the edge of the sewing machine presser foot, and use the tape as a guide to stitch across the quilt. Use a larger machine stitch to look more like hand-quilting. Tip: To keep stitching secure, start sewing just off the top fabric (in the batting), and end just off the top fabric on the other end.

5. Remove the tape, then line it up against line just stitched, and stitch another line in the same way; repeat, moving from the center out to the corners in both directions.

6. When you have finished machine-quilting the entire blanket, trim off extra batting and flannel around edges of top fabric.

7. Cut 3 and 3/4" strips of the solid fabric for the binding. Sew together end-to-end to make one long strip that is at least 5 yards long. Press the strip in half lengthwise.

8. Pin raw edges of strip to the raw edges of the quilt, all the way around on the back of the quilt (flannel side). Stitch the binding using a 1/2" seam allowance, mitering the corners.

9. Flip the binding over the raw edge of the quilt, and sew the folded edge to the front of the quilt with a decorative stitch.

*Adapted from “Simple Baby Quilt” instructions on marthastewart.com.*
SMILE BAGS

Priority Level: HIGH

After receiving surgery, each child receives a Smile Bag, the perfect gift to cheer up a healing child. Smile Bags are filled with small personal care items as well as toys, stickers and a mirror to see their new smile. We need clubwomen to collect personal care items and sew cloth Smile Bags.

Operation Smile is in need of the following items to include in a patient’s Smile Bag. Please send only the items included in this list:

- Small shampoo (.85 to 1.4 oz hotel/travel size, screw-on top preferred)
- Small comb (no rat tailed combs, please)
- Wash cloth, new & unused
- Bar of soap (small hotel/travel size)
- Travel-sized toothpaste (must be at least 6 months from expiration date)
- Individually packaged Child-sized toothbrush
- Small stuffed animal
- 8 or 10 pack box of crayons
- Thin 8.5” x 11” coloring book

Update: We have enough mirrors to last through 2019! Please do not send additional mirrors at this time.

Please Note: We do not send Conditioner, Body Wash, or Lotion on any of our medical missions. Beginning September 1, 2017, we will no longer be accepting these items in supply donations. Please help us to keep our process flowing smoothly by sorting these items out of your boxes before shipping to Operation Smile. Thank you!

Additionally, we will not accept large personal hygiene items considering the volume of items we will need to ship to a medical mission site. We cannot accept any type of food product, like candy or chewing gum; shipping regulations prohibit sending food items across international borders.

How to Make Smile Bags

Smile Bags are 14”H by 12”W, made of sturdy cotton fabric and are closed by a drawstring at the top. The bag is sized to hold a thin, 8.5” x 11” coloring book.

Materials
- Sewing machine
- Iron and ironing board
- Shears or scissors
- Sewing pins
- Brightly colored, sturdy cotton fabric
- Cotton cording or sturdy ribbon for the drawstring
- Thread
- Tacky Glue® or Stop Fray®
Smile Bag Instructions

1. Cut your fabric to the desired size. Since your finished Smile Bag will be 14"H x 12"W, you want fabric that is at least 28" + 3" x 12" + 1" (31"x13").

2. Lay your fabric finished side down on the ironing board. Fold one of the shorter edges of your fabric up ¼" and press. Then fold again 1" and press again. This fold will create your casing for the drawstring. Repeat on the other short edge.

3. Sew close to the top of the fold to secure the casing for the drawstring. Be sure to overstitch at the beginning and end by reversing your stitches in order to secure them. This is especially important as the seam will be stressed by pulling the drawstring through it.

4. Turn your bag inside out and press seams flat.

5. Fold your bag in half, finished sides together. Pin up the sides, stopping where your casing begins. Sew the sides using a ¼" seam, stopping right where your casing begins.

6. Cut 2 pieces of ribbon or cording to desired length. We recommend a length that is double the width of your bag, with an additional 8" for knotting. Put a safety pin through the ribbon or cord. If it is something that frays easily, wrap it with a little tape before inserting the safety pin. To make it easy to pass through the casing, use the biggest safety pin that will fit through your casing easily.

7. Using the safety pin to hold on to, thread your drawstring into the casing, passing it along inch by inch. Go in one side, through to the other side, and come out where you started.
8. Do the same with the other ribbon, but start on the opposite side this time. When you are done, you'll have the picture to the right.

9. Tie a simple knot to secure your drawstring by holding the two ends of one string even, forming a loop in the ribbon and pulling the end through. You can make the knot quite close to the bag. Repeat on the other side.

10. Cut the ends of your ribbon off even, an inch from your knot – or closer/further depending on what you want. If your drawstring ribbon or cord might fray, dab it with a little craft glue (like Tacky Glue®) or fray stopping liquid (such as Stop Fray®) and let it dry.

Please Note: This bag will have exposed, unfinished seams on the inside. You are welcome to finish the inside seams with a zig-zag stitch or serger to make the bag sturdier, but this is not required.

**Smile Bags must be empty when shipped.**
We have a group of volunteers at Operation Smile Headquarters that will pack them when they arrive. If you are also collecting supplies, please place like items in separate plastic grocery or zip top bags to be properly sorted upon arrival. For example, place all shampoo in one plastic bag, all soap in another, and so on.
MEDICAL RECORDS SUPPLY LIST

Priority Level: MEDIUM

Operation Smile medical professionals provide healthcare assessments to determine which children can safely undergo surgery. We bring everything we need to help with our screenings – from pens to staplers, and many other items that may be unavailable while at the medical mission site. These donated items will help us serve more children around the world.

Unless otherwise noted, we request new, unused items to ensure we are sending reliable supplies into the field.

We are currently in need of the following high-priority items:

- Hole punch (2-hole – New or used)
- Staplers (25 sheet capacity – New or used)
- Staples (standard)
- Pencils (No. 2 or mechanical styles)
- Permanent markers, black
- Ink pens (blue and black)
- Sticky/Post-It Notes (3”x3” – any color)
- Legal pads
- Black foam ink pad or fingerprint pad

Additional needs:

- Letter size clipboards (new or used)
- Highlighters
- Markers (multi-color, 10-12 pack)
- Masking tape (1”)
- Pencil sharpeners (new or used)
- Rubber bands (large)
- Scissors (new or used)
- Staple removers (new or used)
- Tape dispensers (Scotch® Brand or similar)
- Invisible tape rolls
- White-out® correction fluid/pen/tape
- Rulers (new or used)
- Binder clips (medium – new or used)
SMILE SPLINTS

Priority Level: MEDIUM

(Formerly No-No Armbands)

Smile Splints (formerly No-No Armbands) help to keep our cleft palate patients from pulling at their stitches in the crucial 24 hours following surgery. These comfortable splints are placed on the elbow of the patient, and the tongue depressors inside keep the patient from bending either arm and touching their face or stitches.

Donations of boxes of adult tongue depressors or jumbo wood craft sticks (must be 6” long and ¾” wide) are needed and can be sent along with the arm bands.

To request a copy of this pattern, or if you have any other questions, please contact us at 1-877-240-7196, communityrelations@operationsmile.org.

Materials

- ½ yard of light weight fabric
- 66" of hem tape or grosgrain ribbon
- Shears or scissors
- Sewing machine
- Thread
- Sewing pins
- Tongue depressors (to insert as splint)

Note:

- Please use cotton, cotton/blend materials in fun bright colors and prints. We cannot accept religious, war or gun themed prints.

Instructions

1. Cut a 10" x 15" fabric rectangle according to the pattern.
2. Hem or serge to create a ½ " finished edge on all sides of the arm band.
3. Fold up 5" and pin in place.
4. Across the fold, mark 9, 1" deep pockets to hold tongue depressors.
5. Stitch the length of each pocket.
6. Cut 3, 22" lengths of ribbon or hemming tape.
7. Fold tie in half, and pin to one side of the arm band, equal distance apart.
8. At the center point where pinned to the arm band, stitch ribbon in place.
9. If you would like to insert tongue depressors/jumbo craft sticks, please insure there is a stick in the farthest end slots, and then one in every other spot (please note the photo above for reference).

Please Note: Popsicle size sticks (4.5" long, 3/8" wide) are not acceptable for Smile Splints.
GENERAL SHIPPING INSTRUCTIONS

When you are ready to ship these items, please complete and submit the Service Project Inventory Sheet to accurately record your efforts. We recommend that you collect donations or work with a local business to cover the cost of packaging and shipping the supplies to Operation Smile.

Please complete the following information:

<table>
