

FOUR WAYS TO SPREAD THE WORD

It takes as little as \$240 for Operation Smile to provide surgery for a person living with a cleft condition, but the time and effort you spend advocating for them is just as valuable. Here are four ways to use your voice and educate others about Operation Smile.

Be the digital voice. Tell your followers about Operation Smile and how they can get involved! Tag @osstudpro in your post or use #osstudpro for a chance to be featured on our social channels.

Be the local voice. By using one of our presentation templates, educate your community about Operation Smile and earn service hours in the process. Your audience will learn more about our cause and your involvement.

A true “Fri-yay.” Everyone is all smiles on a Friday, so why not set up a “What Makes Me Smile” table or Zoom chat that day. Invite everyone to write down what makes them smile, snap a selfie with their smile sign, and post it using #osstudpro.

Kindness never takes a day off. Devote one day a month for your club members to perform random acts of kindness for members of your school and community.
